MARCH 2026

Dt.4 3.26
**An investment
for the future.
Girls planting
Areca nut trees
in the hostel
campus.**

Dt.9.3.26
Amidst a very loving & homely atmosphere, a farewell feast had been organised & sponsored by our teachers , in honour of the class X girls . That was a very touching moment for all present there.

Dt.10.3.26
The children
approaching the hall
for the Annual Exam.
After a year long toil
of many activity filled
days and sleepless
nights,finally the much
feared and much
awaited day has
arrived.Though the
children are nervous,
yet hopeful.

Dt.14.3.26
Impact of Middle
East war began -----
Started buying fire
wood for cooking in
very high price, due
to the unavailability
of cooking gas.

“A willing heart and an outstretched hand ” can bring considerable transformation in the society , by creating a “ripple effect ” (making a difference together) by one’s own compassionate efforts. Believing in this motto members of Union Bank - Cuttack, organised a meeting with our children on Dt.16.3.25. and as a token of love and togetherness, presented each child a school bag, notebook and pen.

Dt.27.3.26

. From this session, we have formally started Vocational education in our school by keeping at least 3 to 4 hours on Saturdays and Sundays, specifically dedicated to this training. Initially we decided to give this project a serious thought, in order to generate some regular income for the school. After starting to work on this, we realized that , a regular training for these economically backward girls , in this area is more necessary, as this will provide them with practical marketing skills, which will enable them to earn their own livelihood, enhance their self esteem and self confidence. This will ultimately make them job creators rather than job seekers.
