

NEWS LETTER

MAY & JUNE 2026

This Summer vacation 11 little girls, who had to stay in the hostel, the whole vacation. But fortunately the entire vacation was an entertaining time for them, as the students of the Department of Education from JKBK College had an internship programme with them. From 5th May to 25th of May, everyday for 2 to 3 hours, the students kept the kids absorbed in learning new things through story telling, singing, dancing and playing innovative games. On the last day, they organised an awareness programme and taught them about the precautionary measures against sun stroke, the necessity of maintaining distance from unknown people and how to differentiate between good touch and bad touch. Presenting gifts for “Raja Sajbaja” they also had arranged a feast for the children on the last day of their internship. Two students from Ravenshaw College also filled the Summer days of the children with various enjoyable activities like their JKBK counterparts. They also made our children richer with gifts and toffees, above all with love and kindness. When our kids, with tears rolling down their cheeks didn't want to bid them goodbye, the girls from both the colleges promised to visit them again and again in the coming days.

College students interacting with our kids.

On the last Raja day the two girls from Ravenshaw college presented the kids with adornment items like cosmetics, artificial jewellery and food items for Raja Sajabaja.

This time the kids have had a grand Raja celebration with the aunties of the Inner Wheel club of Cuttack Central. The happiest part of the get together is that, to the children, it felt like an intimate family gathering. For that 2/3 hours , with sweets, different types of home made 'pithas'. Specifically poda pitha,Raja pana and a lot of other foods and along with it every item of adornment from hair clip to beautiful new dresses,the girls fully enjoyed the flavour of home. Perhaps a more glamorous one than normal.

It was a gift for us to see the happy faces of those little innocent girls, where there was no sign of any kind of sadness in them for not having any home to go during vacation. Because whenever an occasion arises our friends and well wishers bring HOME to our hostel with their love affection and warmth.
